Yala's arid boulder-scattered parklands are dramatically different from the lush jungles and paddy fields that cover so much of the island. Spanning 100,000 hectares of dry thorny scrub and dusty glades, you could easily be in an African bushveldt, right down to the long-thorn bushes. This background was so suited to viewing elephants, leopards, wild boar, spotted deer, crocodiles and jackals that the entrepreneurial South African Englebrect, who was shipped over as a POW after the Boer War, rightfully instigated it as a sanctuary – Sri Lanka's first – at the turn of the twentieth century. It's now the oldest and most prominent of them all.

Take a stroll through the wild forest walkways while taking in the magnificent landscape that surrounds the camp site where you have the option to choose to go in the morning or evening.

To guarantee your safety and pleasure, each walk is accompanied by one of our safari experts who are knowledgeable about the area and its fascinating sights. During our 1 hour nature strolls, our seasoned rangers will guide you into the depths of a nearby historical cave, where you will hear about its rich history and the treasures it once held.
